Nombre De La Materia: Fundamentos De Telecomunicaciones

Nombre De La Unidad: Sistemas de comunicación

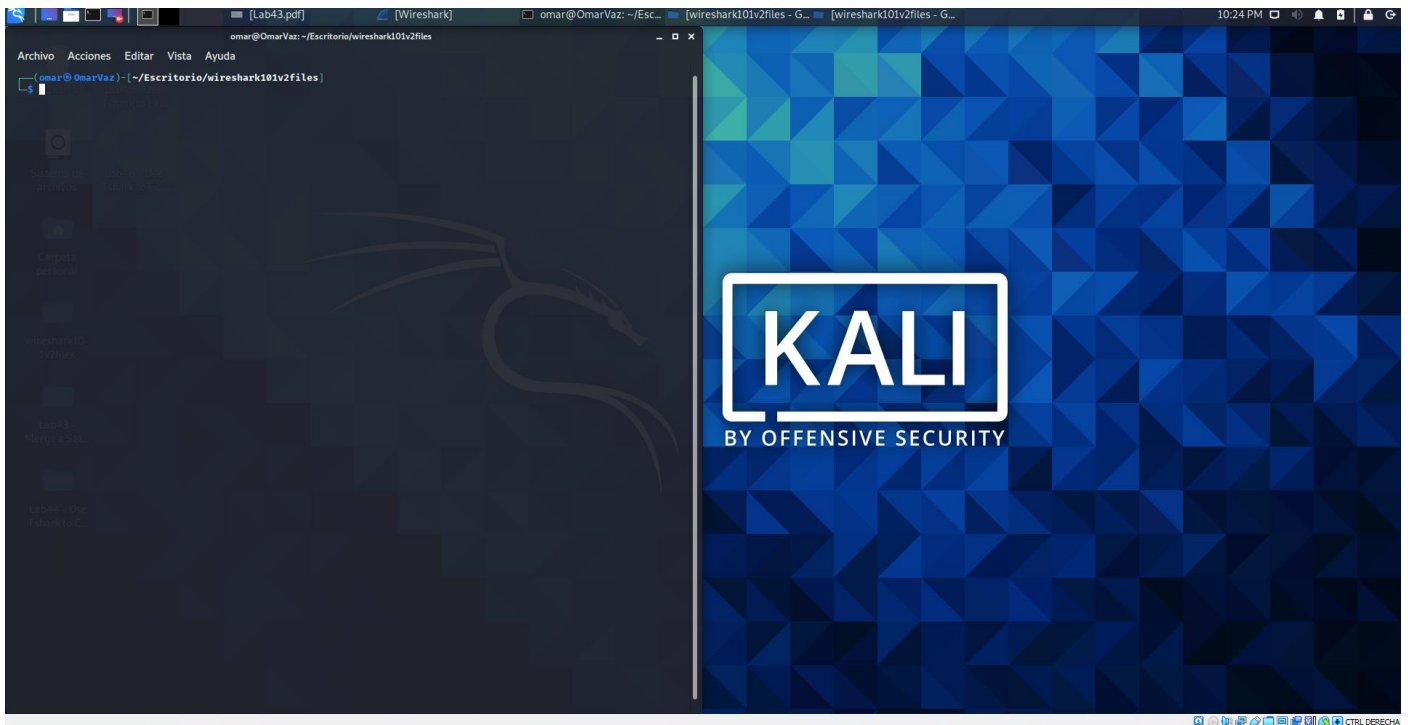

N.º De Actividad: Laboratorio 43

Nombre Del Alumno: Vazquez Canto Andres Omar

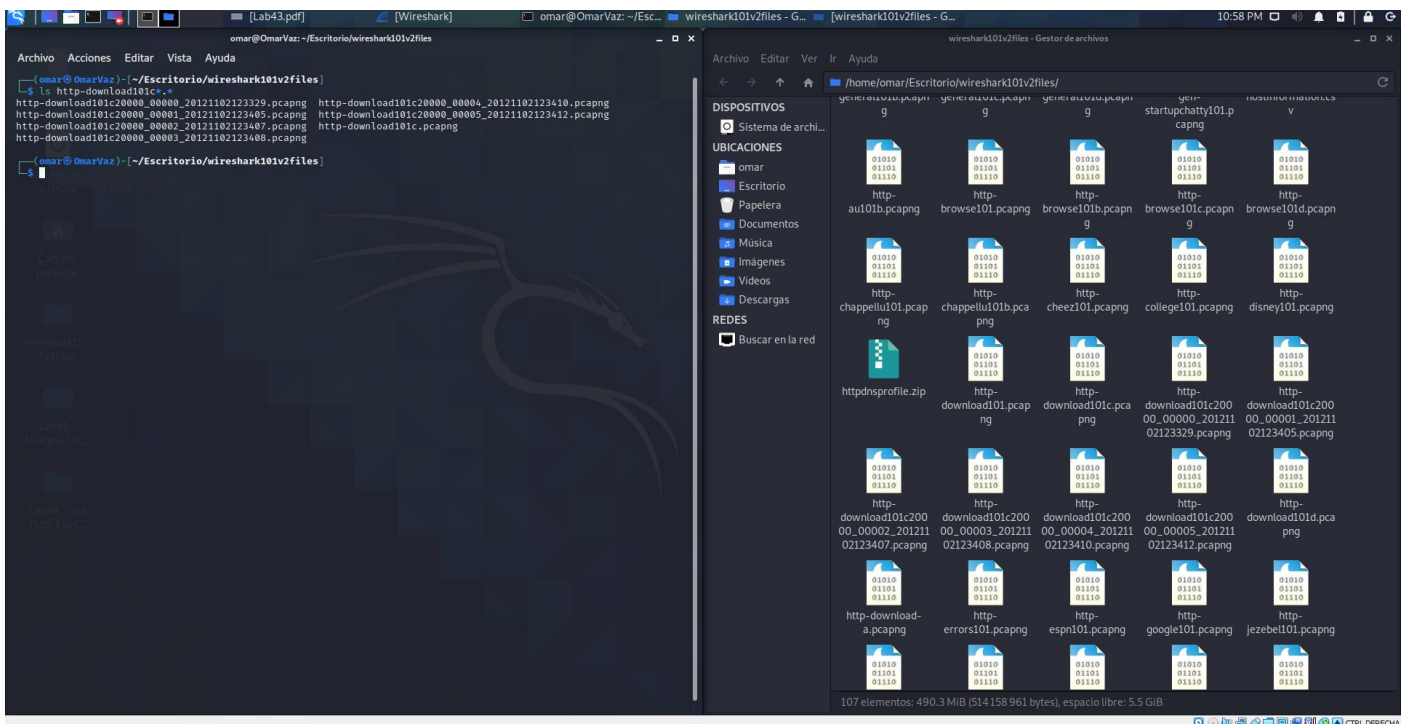

N.º De Control: 17530439

Lab43- Merge a Set of Files using a Wildcard

Paso 1:

Paso 2:

The screenshot shows a Kali Linux desktop environment. In the foreground, a terminal window displays a series of commands and their outputs, demonstrating the process of downloading and attempting to access PCAP files. The commands include:

```

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls http-download101c.pcapng
http-download101c20000_00000_20121102123329.pcapng http-download101c20000_00004_20121102123410.pcapng
http-download101c20000_00001_20121102123405.pcapng http-download101c20000_00005_20121102123412.pcapng
http-download101c20000_00002_20121102123407.pcapng http-download101c.pcapng
http-download101c20000_00003_20121102123408.pcapng

omar@OmarVaz: ~/Escritorio/wireshark101v2files
mersecap -w http.download2kset.pcapng http-download-c20000.*
mersecap: The file "http-download-c20000.*" doesn't exist.

omar@OmarVaz: ~/Escritorio/wireshark101v2files
mersecap -w http.download2kset.pcapng http-download101c20000.*

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls http-download2kset.pcapng
ls: no se puede acceder a 'http-download2kset.pcapng': No existe el fichero o el directorio

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls http-download2kset.pcapng
ls: no se puede acceder a 'http-download2kset.pcapng': No existe el fichero o el directorio

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls http-download2kset.pcapng
ls: no se puede acceder a 'http-download2kset.pcapng': No existe el fichero o el directorio

omar@OmarVaz: ~/Escritorio/wireshark101v2files
mersecap -w http.download2kset.pcapng http-download101c20000.*

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls http-download2kset.pcapng
ls: no se puede acceder a 'http-download2kset.pcapng': No existe el fichero o el directorio

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls 200-http.download2kset.pcapng
ls: no se puede acceder a '200-http.download2kset.pcapng': No existe el fichero o el directorio

omar@OmarVaz: ~/Escritorio/wireshark101v2files
ls http.download2kset.pcapng
http.download2kset.pcapng

omar@OmarVaz: ~/Escritorio/wireshark101v2files

```

In the background, two file explorer windows are open. The left window shows the directory structure of the terminal, with the file 'http-download101c.pcapng' selected. The right window shows the properties of this file, indicating it is a Packet Capture (PCAPNG) file of 26.7 MiB. The desktop also features several other PCAP files and a taskbar at the bottom with various application icons.
